## Frontend Developer

Greetings, I'm Bekir. I live in Manisa, Turkey. I am a frontend developer. I've been teaching HTML, CSS & Javascript for a long time. You can find all my projects and articles I wrote on my portfolio site. I am looking for a job where I can prove myself in this field.

### EDUCATION

**Ege University** **2018 - 2020**  
**İzmir, Turkey**

#### *Biomedical Technician*

- I studied biomedical technologies and successfully completed my school. I developed PIC programming and applications with C language for Computed Tomography (CT).

### PROFESSIONAL EXPERIENCE

**Freelance, Manisa, Turkey** **October 2022 - Present**  
*Frontend Developer Teaching*

- I regularly teach my students html, css and javascript.
- I have 5 students studying on this subject for now. It makes me happy to teach on this subject.
- I teach web development classes for beginners up to intermediate level. I give 30% theoretical and 70% practical training in my classes.

### PROJECTS

**#1 Covid-19 Tracking App** **2022**

[ <https://covid-19-tracking-app.vercel.app/> ]

- Technologies used: React, React hooks, Axios, Apexchart, Covid-19 API
- Features: The application where you can see the Covid-19 statistics of the country you want on any date.

**#2 Pokemon Memory Game** **2022**

[ <https://pokemon-memory-game-cryptobcu.netlify.app/> ]

- Technologies used: React, Redux, Framer Motion, TailwindCSS
- Features: A memory game played by finding the match of Pokemon.

**#3 Joker Owl** **2022**

[ <https://joker-react-typescript-cryptobcu.vercel.app/> ]

- Technologies used: React, Typescript, Styled Components, Axios
- Features: An owl that makes jokes about the word you type.

### SKILLS AND INTERESTS

- Technologies used: **HTML, CSS, Javascript, React, Redux, NextJS, Typescript, SASS, Git & Github**
- Skills: Debugging, Problem solving, Communication, Computer Science, Software development
- Languages: Turkish, English
